

Aerobic & Anaerobic
bacteria

100% Natural Product

Eco-Friendly Product

BENEFICIAL BACTERIA

Proven results in eliminating ammonia, nitrates, phosphorus, organic matter, & odours.

Rapid treatment improvement with significant water clarity within 3-7 days.

Effectively reduces sludge by decomposing waste through biofloc formation.

Safe for all aquatic life, even at higher doses, to support a healthy aquatic ecosystem.

READ SAFETY DIRECTION

Directions of Use: Shake well before use. Avoid use with chemical treatments, UV, or ozone.

Suggested Dose Rate:

- **First - time use:** 10mL per 1,000L water (double or triple the dosage for heavily polluted water).
- **Regular maintenance:** Add 5mL per 1000L of water fortnightly.

The above dose rate is a guideline that may need to be increased or decreased according to individual conditions, such as water pollution level, water body size and depth, algae density, water temperature, volume of suspended material etc. More accurate dose rates can be established by onsite testing.

Storage: Store in the closed, original container out of direct sunlight. Best stored between 5 - 45 °C. DO NOT FREEZE.

Safety: Avoid eye contact. If product gets into eyes, rinse immediately with water. Not for human consumption. Keep out of the reach of children.

Improper use or deviations from the recommended application guidelines as well as changes in water conditions may harm aquatic life. BBA Biosolution is not liable for such losses.
